Lynne Oler, City Manager
City of Mary Esther, Florida
195 Christobal Road, North
Mary Esther, Florida 32579

Dear Mrs. Oler,

Pursuant to Section 5(E). Part 1.a., The Okaloosa County Sheriff's Office formally requests to be considered as a law enforcement service provider for the City of Mary Esther, Florida. The sheriff is a strong advocate of consolidated law enforcement services as a means to cut costs to the municipal tax payers, especially in this fiscal environment. The sheriff remains committed to providing the best law enforcement services available at a reasonable cost to the residents of Mary Esther.

As related to the specific components to the City's RFP let me address one item on the cover page of the RFP document. The Okaloosa County Sheriff's Office is not participating in a "competition" with other law enforcement agencies. Law enforcement service contracts provided by the OCSO are based on a cost reimbursement model only. By that we mean that the sheriff only attempts to capture costs associated with providing exclusive law enforcement services to municipalities. There is no profit margin and the sheriff's office does not attempt to obtain financial consideration intended to support or augment services not provided to the city. The Okaloosa County Sheriff's Office already provides the lowest per-capita cost for law enforcement in the county, and is among the lowest in the state. We believe then that any comparison should then be in contrast to an in-house city police department.

Since the sheriff's office is the current service provider, and the city has consistently expressed a great deal of satisfaction with our service levels, this RFP response will generally consist of those items identified as being new to the yearly contract negotiations.

Sincerely,

Major J.D. Peacock,
Director of Administration

The Okaloosa County Sheriff's Office is accredited by the Commission for Florida Law Enforcement Accreditation.

"The Okaloosa County Sheriff's Office provides equal access and equal opportunity in employment and services and does not discriminate"

Section 1 – General Conditions and Requirements

1.1 Scope of Work

The OCSO will provide exclusive law enforcement officers, and other personnel, to the city as agreed to by the City Council and the Sheriff each contract year. The OCSO will only be obligated to provide **exclusive** services as outlined in the service contract. However, the agency has and will continue to provide many services to the residents of the city as a part of the agency's county-wide responsibilities.

1.2 Technical Exhibits

The OCSO provides timely statistical data and reports to the city as requested. This response may include additional city and county data than presented in this RFP.

1.3 Workload

The OCSO will provide all response capabilities required to handle any law enforcement activity occurring in the city as described in the service contract.

Section 2 – Specific Tasks

2.1 Patrol

The OCSO will provide patrol services throughout the city as described in section 2.1

2.2 Working with the Community

The OCSO has a strong history of using community policing concepts and will continue to utilize all available resources to provide solutions to community challenges.

2.3 Victim Assistance

The OCSO recognizes the importance of providing services to crime victims in the community and has policies in place to provide for such support.

2.4 Policy Enforcement

The OCSO will provide for the enforcement of laws and ordinances as described in Article V of the service contract.

2.5 Cite, Reprimand & Arrest

As indicated in section 2.4 the OCSO will provide for the enforcement of laws and ordinances as described in Article V of the service contract. This will necessarily require the agency takes such actions as described in section 2.5 of the RFP.

2.6 Control Crowds & Traffic

As indicated in section 2.4 the OCSO will provide for the enforcement of laws and ordinances as described in Article V of the service contract. This will necessarily require the agency takes such actions as described in section 2.6 of the RFP.

2.7 Investigate

As indicated in section 2.4 the OCSO will provide for the enforcement of laws and ordinances as described in Article V of the service contract. This will necessarily require the agency takes such actions as described in section 2.7 of the RFP. As a reminder the city has not provided for exclusive investigative personnel as a part of past sheriff's service contracts. The investigative division resources are provided in support of the exclusive deputies assigned to the city and do not generate an additional cost to the city.

2.8 Record Keeping

Record keeping services are provided as a component of the administrative support costs within the service contract.

2.9 First Aid

All OCSO law enforcement personnel are trained first responders and will refer to those protocols when they encounter a medical emergency.

2.10 Respond to Calls

The OCSO will respond to all incidents in the city with whatever resources are reasonably considered necessary to handle the circumstances.

2.11 Testify

Members of the OCSO will respond to and comply with those court related responsibilities as a part of their official duties.

2.12 Crossing Guard

The OCSO will provide a trained and certified crossing guard as identified in the service contract.

2.13 Security

The OCSO has instituted a procedure whereby the district commander, or a member of the district command in his/her absence, will attend regular city council meetings. This procedure will serve as the OCSO proposal to comply with section 2.13. Any additional personnel required to provide security for city meetings will be charged as prescribed in Article I, item d. of the service contract.

2.14 Other Activities

Any **exclusive** law enforcement activities provided, which are not identified in the service contract, will be subject to the charges prescribed in Article I, item d. or the service contract.

Section 3 – Service Delivery

This section of the RFP appears to be a statement of how the city intends to measure the performance of law enforcement services. The OCSO has been open to any and all requests for statistical data analysis. The agency will continue to be proactive with the use of statistical indicators. The OCSO currently provided citizens with real-time tools to be better informed of ongoing law enforcement activity in the city. The agency's cutting edge use of internet resources and social media to provide information has provided the community with instant access traffic reports, crime prevention alerts, and many others.

The OCSO also provides several incident statistical reports to city leadership. In addition the OCSO leadership has been open and available to the city leadership to provide information and/or attendance at meetings regarding law enforcement matters.

While the RFP does not request specific statistical indicators, OCSO Exhibit #4 provides those statistics that have been included in the beginning of the yearly service contract negotiation.

Section 4 – General Information

4.1 Liaison / Supervision

As indicated in Article VII of the service contract the OCSO will designate a liaison to the city. The current designee pursuant to this Article is the Central District Commander for the OCSO. The OCSO will notify the City manager, in advance, of any changes to the OCSO designated liaison.

4.1 Uniform / Patrol Car

The OCSO will maintain control of uniform selection and patrol car marking designs. However, as described in Article VI of the service contract the OCSO agrees to affix a city seal to all marked vehicles assigned to **exclusively** assigned personnel.

4.3 Quality Control

The OCSO is accredited by the Florida Commission for Law Enforcement Accreditation and strives to maintain a very high level of quality in all of its service components. The OCSO maintains a Professional Standards and Training Unit composed of a Captain, Inspector, Training Coordinator and Firearms Instructor/Range Master.

4.4 Quality Assurance

The OCSO welcomes any and all evaluations conducted by the City Manager of the effectiveness and efficiency of the Okaloosa County Sheriff's Office.

Section 5 – Furnished Property and Services

The OCSO will provide its personnel with all equipment necessary to perform the activities described in the service contract. Any property or supplies provided by the city will only be used in support of **exclusively** assigned personnel.

The property described in Technical Exhibit B would be eleven years old and almost all of the property has since been disposed of by the OCSO. The city has provided very

little funding for such items through the duration of the service contract to date. During the FY 2012 contract negotiation the OCSO changed its contract cost model to begin providing for a cost to replace those capital items assigned to the **exclusive** personnel. The cost model will enable the city to retain assigned vehicles and equipment for contracted personnel should they chose to end the agreement with the OCSO in the future.

As for now, the OCSO will be able to transfer only two items described in Exhibit B: the 1999 Smart Trailer, and a Hewlett Packard Printer. The OCSO will also make any surplus property available to the city should they be interested.

The OCSO has an office on Lovejoy Road that is used by district personnel assigned nearby. Additionally Captain Lapee has been in communication with city staff on utilizing space in City Hall for a small office. The OCSO has no operational need to utilize office space inside the mall. However, discussions are underway with mall management on the procurement of WiFi hotspots on mall property for various OCSO information technology needs.
